

Transfer Guide

Waubonsee Community College to Wheaton College

This document is intended to help students who wish to begin at Waubonsee Community College, and later transfer to Wheaton College, plan for courses that will meet Wheaton requirements.

Core Competencies:

Foreign Language - Wheaton College requires completion through the Intermediate Level to meet competency. Must be taken in-person--not online.

Oral Skills - COM 100. Must be taken in person--not online.

Writing - ENG 101 and 102. Both are required to fully meet Wheaton's Writing competency.

Thematic Core

Choose up to 4 of the following categories, which we call themes. A **maximum of 4 themes** can be met with transfer credit. Courses on the list beyond 4 themes would come in as elective credit.

AAQR (Math) - MTH 131 if Calculus is needed for your intended major, otherwise MTH 107, 130, 131, 210 or 211.

Scientific Practice (Lab Sciences) - BIO 100+101, ESC 100+101, PHY 111 or PHY 221.
If majoring in Biology, Chemistry or Applied Health Science, take BIO 120 & 122 and CHM 121. We do not recommend taking Anatomy & Physiology courses because they will not meet the requirement for the major at Wheaton. Engineering & Physics majors should begin with PHY 221. Must be taken with a 3 hour per week, in person lab component.

Literary Explorations - ENG 220, 221, 222 or 229

Visual & Performing Arts - ART 100 and MUS 100 (need both to complete the theme)

Historical Perspectives - HIS 101 or 102

Philosophical Investigations - PHL 100

Social Inquiry - ANT 101, ECN 201, PSC 100 or 220, PSY 100 or SOC 100

Major Courses

Round out your schedule with entry level courses in a major you are interested in pursuing. Wheaton College requires a certain number of courses in the major be taken at Wheaton, so it is best not to take a large number of major courses.

* We do not transfer associate degrees; transfer credits are course by course.

Please consult the *Wheaton College Catalog* online for information on *Christ at the Core* General Education Program and Major requirements at www.wheaton.edu/catalog.

For specific questions, please e-mail the Transfer Analyst, Jan Miller, at Janet.Miller@wheaton.edu
