GUIDELINES FOR GETTING GEAR

- If you have questions or want advice, please ask! We'd love to help you out.
- You probably have a lot of what you need sitting in your closet right now. And if you don't, your family and friends might, so **see what you can borrow before you start buying stuff.**
- Wisconsin summer weather typically means highs between 70° and 90° Fahrenheit and lows in between 40° and 50° Fahrenheit. Bring layers you can use to keep you comfortable despite the changes in weather.

An Explanation of the Different Types of Clothing Fabrics

COTTON

AVOID COTTON. When cotton gets wet (even from sweat) it stays wet and will not keep you warm. This includes materials like corduroy, denim, and flannel.

SYNTHETICS

These are materials like nylon, polyester and spandex that are used to make a lot of athletic-style clothing. Synthetic materials dry more quickly than cotton, and wick moisture away from your skin to help keep you warm.

FLEECE

Fleece also dries more quickly than cotton, and will keep you warm even when it's wet.

WOOL

Wool doesn't dry very quickly, but it is odor resistant and will keep you warm even when it's wet.

IMPORTANT NOTICE

Wilderness Track includes 2 phases. Phase 1 is your wilderness trip. Phase 2 occurs at HoneyRock with all the other tracks. When you check in, you will pack your trip gear in waterproof bags and the rest of your gear will travel to HoneyRock for when you return from your trip.

We recommend that you pack two bags: a Phase 1 bag and a Phase 2 bag. See following pages for instruction.

9 Day Canoeing Trip

PHASE I

CLOTHING

UPPER BODY

- Base Layer
 - synthetic, non-cotton long underwear top that will help keep you warm, especially at night.
- T-shirts (1-2) – synthetic or wool
- Long-Sleeve Shirt (2)
 - wool/fleece/synthetic (non-cotton).
 - Added layer of warmth
 - Also used to keep bugs away
- Ladies: sports bras made out of a moisture wicking material are recommended.

LOWER BODY

- Athletic Shorts (1-2 pairs)
- Hiking Pants
 - Synthetic, non-cotton, lightweight and quick drying.
 - The “zip-off” kind can be converted to shorts, which is really useful. Lightweight athletic-style pants work fine too.
- Base Layer
 - Synthetic, non-cotton long underwear bottoms that will help keep you warm, especially at night.
- Underwear (3-5 pairs)

HANDS AND HEAD

- Ball cap or 360 brim hat (required)
- Lightweight Winter Hat
- Gloves
 - Wear around the campsite or to bed on chillier nights.
 - Thin/thick depends on your preference

FOOTWEAR

- Water Shoes
 - Sturdy w/ secure back strap
 - Yes: Chacos, Keens, Teva
 - No: Flipflops, Crocs
- Tennis/Athletic Shoes
 - A pair of sturdy tennis shoes for the campsite and for portaging the canoe.
 - You will likely be portaging (carrying your canoe and all your gear between lakes) during your trip, so it is very important that you have a pair of supportive athletic shoes that will protect your feet. The terrain is often rough and rocky, so please bring shoes that can stand up to some abuse, but do NOT bring hiking boots - they are too bulky.
- Socks (5-6 pairs)
 - MUST be wool or synthetic NOT COTTON
 - 3-4 for hiking
 - 1-2 for sleeping (thicker/cozier)

OUTERWEAR

- Rain Jacket
 - Waterproof (not water resistant)
 - Lightweight
 - Breathable
- Lightweight Fleece Jacket OR Lightweight Down Jacket
 - Your primary “keep warm” layer.
 - Fleece is great because it keeps you warm even if it gets wet.
 - Down is very packable but if it gets wet, it will no longer keep you warm.
- Swimsuit
 - Women: one piece
 - Men: shorts style

- Chap Stick
- Ladies: Tampons/Panty Liners
 - Bring these even if you don't think you're going to need them—the trip environment can sometimes cause an unpredictable cycle. You should also make sure to bring some panty liners to help with personal hygiene.

OPTIONAL GEAR ITEMS

All this stuff is optional—you don't need it, but it can be useful.

- Carabineers
 - Not rock-climbing rated; just clipping-things together ones. Worth the weight of 1-2 – they always seem to come in handy!

 - HoneyRock has these for you to use on trips but some people prefer their own and they'll be useful for the rest of your time at HoneyRock.
- Multi-Tool with Pliers/Knife
 - Nothing fancy, just something that you can use to slice cheese and perform miscellaneous chores.
- Vaseline
 - Get a little travel-sized jar. Great for chapped lips, chafing, and blisters.

 - Useful for all kinds of things!
- Crazy Creek or Camp Chair
 - This is a total luxury item. But it can be nice around the fire at night!
